*The first three reports and quiz grades will form your midterm grade.

*Your report grades will affect your term grade by a maximum of 48 points, your quiz grades by a maximum of 12 points and your final exam grade by a maximum of 50 points.

*Each student must complete all the experiments in order to pass the course.

Online Theoretical Session Schedule
07.03.2022-10.03.2022
Linear Conductive Heat Transfer Experiment / Öğr. Gör. Dr. Savaş Yağlıkcı
Airflow Experiment / Prof. Dr. Mustafa Tutar
28.03.2022-31.03.2022
Convective Heat Transfer Experiment / Öğr. Üyesi Dr. Kaan Soysal
Hydraulics Experiment / Dr. Öğr. Üyesi Işık Semerci
18.04.2022-21.04.2022
Combined Radiation and Convection Experiment / Öğr. Gör. Dr. Kaan Soysal
Hydrostatics Experiment / Doç. Dr. Evüp Duman
Important note: Theoretical session dates and hours will be announced for each experiment and will be held via "e-kampüs" platform. Please check your e-mails for unmissing the sessions.
